

Solar Expression of Interest Extension of Deadline

Synergy is extending the deadline for submissions to its Solar Expression of Interest process.

On 28 November 2009, Synergy announced its Solar Expression of Interest process with a stated deadline for lodgement of expressions to be submitted between 8:00am and 10:00am on Friday 15 January 2010.

In order to allow respondents the maximum possible amount of time to formulate and finalise proposals, Synergy is exercising its right to delay the EOI process by extending the deadline for responses to be submitted.

Responses should now be submitted between 9:00am and 12:00pm (AWST) on Friday 29 January 2010.

This change will not affect Synergy's capability to provide project proponents with a letter of support for prospective Solar Flagship Program submissions, where appropriate, but will mean that Synergy's short-listing of a Preferred Respondent(s) will be delayed until 12 February 2010.

All other aspects of the original Expression of Interest document and associated process remain the same, with the exception that responses may now be delivered via courier or by hand delivery to Synergy's head office at 228 Adelaide Terrace, Perth WA 6000.

For any related queries please contact Paul McCarthy on (08) 6212 1165 or Stan Reid on (08) 6212 1185.
