### Product Information

1. The Synergy Business Time of Use Fifty (R3) tariff consists of a fixed daily supply charge plus variable electricity charges dependent on the time and day of the week electricity is consumed. Other standard fees and charges may also apply.
2. The Synergy Business Time of Use Fifty (R3) tariff has the following cost structure:

<b>Supply Charge (dollars per day)*</b>	<b>3.6995</b>
<b>Electricity Charge – Peak (8am to 10pm Monday to Friday, including public holidays)*</b>	<b>53.9636</b>
<b>Electricity Charge – Off-Peak (all other times)*</b>	<b>16.2107</b>

*\*Prices current as at 1 July 2024. All prices are inclusive of GST. Synergy calculates its tariffs to four decimal places. Electricity is charged in cents per 'unit' unless otherwise specified. A 'unit' is one kilowatt-hour (kWh).*

3. Upon completion of this Application & Metering Request Form, Synergy will request the required metering work. A meter exchange fee of \$105.93 (inc GST) or a meter reconfiguration fee of \$106.92 (inc GST) (as applicable) will apply where required to meet metering requirements for the Synergy Business Time of Use Fifty (R3) tariff. If applicable, it will be included on your first Synergy bill after the new meter has been installed. You will be liable for the cost of the required metering works and any associated work. All metering equipment and labour charges will be applied per the standard pricing schedule for normal work hours of the network operator, Western Power. Additional charges may be applicable for work completed outside of normal work hours.
4. The Synergy Business Time of Use Fifty (R3) tariff is only available to business customers that consume 50 MWh or more per year (which equates to 137 units on average each day). The customer agrees to be supplied under the Synergy Business Time of Use Fifty (R3) tariff for a minimum period of 12 months.
5. Your premises must comply with all applicable technical requirements including those relating to meter enclosures.  
These can be obtained from the website of the network operator, Western Power at [westernpower.com.au](http://westernpower.com.au).
6. Subsidiary meters supplied by Western Power must not be used to access the Synergy Business Time of Use Fifty (R3) tariff. Western Power supplied subsidiary meters must be returned at the time of installation of the new meter or instead purchased from Western Power. Pre-payment is not required. However, you must decide when you apply so that the necessary work can be arranged. If you choose to purchase any subsidiary meters, please be aware that Western Power does not read customer-owned subsidiary meters. If you choose to return the subsidiary meters, you may need to arrange for additional electrical work by a licensed electrical contractor.
7. The network operator, Western Power, will endeavour to complete the required metering work within 10 working days for metropolitan areas and 20 working days outside the metropolitan area from when Synergy requests the work to be done.
8. The supply of electricity under the Synergy Business Time of Use Fifty (R3) tariff is subject to Synergy's Standard Electricity Agreement Terms and Conditions which can be found at [synergy.net.au/agreements](http://synergy.net.au/agreements) and tariff by-laws made under the *Energy Operators (Powers) Act 1979*.
9. You will be supplied under the Synergy Business Time of Use Fifty (R3) tariff once any required metering work has been completed (including commissioning).
